**SERVICE LIST FOR  
 2-MODE USER TERMINAL (GLOBALSTAR/GSM) AND FAU200  
 GLOBALTEL COMMUNICATION SERVICES**

<b>Service Name</b>	<b>Tariff units</b>	<b>Service Name</b>
Short Message Receive (SMS receive)	Free	Short message service (SMS) enables to receive and transmit messages through the satellite phone without additional equipment usage. Message delivery to addressee is guaranteed even when addressee is positioned outside service area or his phone was switched off or in busy mode. Instructions on how to send and receive messages can be find in corresponding User Terminal manuals. Service is included in “Main Service Pack”.
Short message transmit (SMS transmit)	Per each message transfer	
National Roaming	min	Service allows Globalstar 2-mode terminal (Telit and Ericsson) to operate in cellular networks of Russian Federation (GSM standard)
Call restriction: <ul style="list-style-type: none"> <li>- Outgoing calls restriction</li> <li>- Outgoing calls restriction (international)</li> <li>- Incoming calls restriction</li> </ul>	free	This network service enables to temporary reject certain kinds of incoming and outgoing calls.  Note: it’s still possible to make a call to the Service center number 611. Service activated by Service Center upon written subscriber request.
Call waiting + Call hold	Per each month	This service enables to receive the new call notification signal during current call and make an answer as well as switching between two calls. This service does not allow to join calls into three-party call. Included in “Basic Service Pack”.
Conference call <b>(not for Ericsson FAU-200 terminal)</b>	min	This service enables to arrange simultaneous call of six subscriber. At the same time both incoming and outgoing calls can be combined together. Service offered only jointly with Call waiting/ Call hold mode. Service is included in “Main Service Pack”.
